

6 types of macro evolution:

1.

2.

3.

4.

5.

6.

What is adaptive radiation?

What is a niche? Give a species and its niche.

What is convergent evolution?

Give an example of convergent evolution.

What is coevolution?

6 types of macro evolution:

1.

2.

3.

4.

5.

6.

What is adaptive radiation?

What is a niche? Give a species and its niche.

What is convergent evolution?

Give an example of convergent evolution.

What is coevolution?

What are two types of coevolution?

Give an example of coevolution.

What is symbiosis?

Give an example of symbiosis.

What are the 3 types of symbiosis, and what are the characteristics of each type?

1.

2.

3.

What are developmental genes? What is an example of a developmental gene?

When is the activity of the developmental genes most important?

What are two types of coevolution?

Give an example of coevolution.

What is symbiosis?

Give an example of symbiosis.

What are the 3 types of symbiosis, and what are the characteristics of each type?

1.

2.

3.

What are developmental genes? What is an example of a developmental gene?

When is the activity of the developmental genes most important?
